EXETER UNION HIGH SCHOOL

APRIL 25, 1969 VOL. 3, NO. 4

## EUHS Talent Show - Good Or Excellent?

As the curtain rose to the beat of Sam Epperson's drum, tension was rising. Greg, Martha and Abby were trying to remember their lines. Pete was making up bird calls and the New Ashmoleans were blowing the walls out of the dressing room.

On the last beat of Sam Epperson's drum solo, the dancers were in action starting E.U.H.S.'s annual all school production US! A first for the show were the dancers, under the direction of choreographer, Sali Evans.

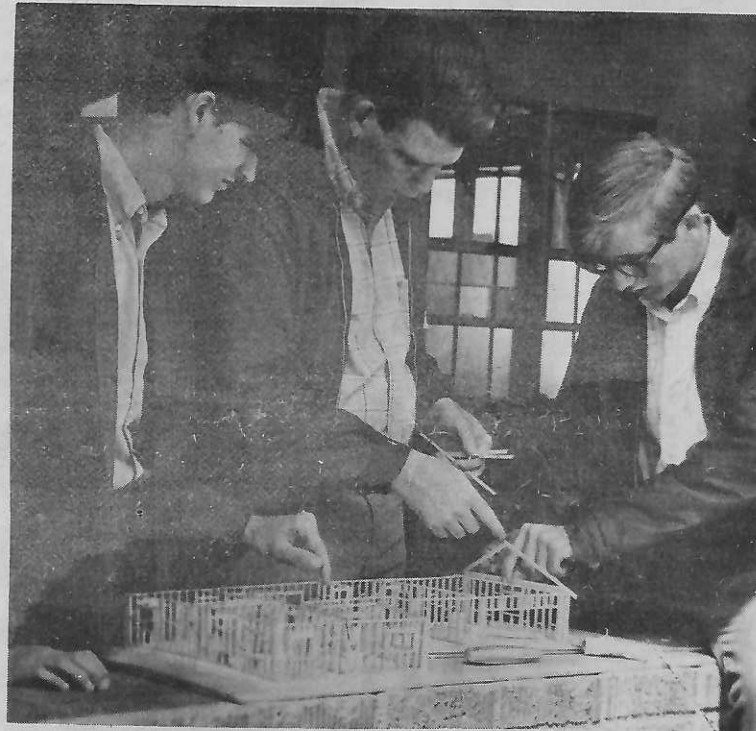

Greg Padgett was MC again this year along with his associate MC, Martha Evans. A KEEP OUR KAMPUS GREEN campaign was Greg's dream, which was repeatedly interrupted by Abby Northcutt's LOVE campaign, Pete Hickey's bird calls and our salesman of the Handy Dandy Do-It Yourself Detention Kit, Don Sebren.

Many new and different acts were performed, ranging from the Mission Impossible skit to the Faculty Room scene. The two novelty acts of the show were Sali Evans and John Hickman's Dying Swan scene and Willie Arnold with his tap dancing and spoon playing routine.

The ending, a big, wild finale of mad dancing and singing down the aisles, proved to be one of the many wild moments of the show, along with the band of Gopher T. Slocum and the Dirt Packers.

This year's show greatly surprised many people by being more like a regular comedy show than one of "those terrible amateur things starring Joan and her magic comb and tissue paper, Ernie Flotz and his tenor solo and Elma Fleegle and her accordion."

If Joan, Ernie and Elma don't choose to perform then it was decided that their various clubs should perform. "And if the clubs won't perform," states Mrs. Havdu "then we must do the best we can."

## Students Build Model Homes

The Architecture II students are working on model homes. The students were divided into three groups, each of which are building their own homes. There is one master plan for all three of the houses, but the groups may custom design the exterior to their own taste.

The foundation of the model is made of plaster of Paris. This works fine unless it develops some lumps and then you have problems, which is what

## Donkey Basketball

## Seniors Overcome Faculty!

This year's Senior-Faculty donkey basketball game was full of life (with the added attraction of the Senior girls and women faculty) and laughs, as the Senior boys and the Faculty men repeatedly landed on the

gym floor. There were many fierce scuffles for the ball. One of the more outstanding struggles was between Mike Anderson and Mr. Hitt. The audience was roaring, as Mr. Hitt had Mike in a head lock and the scuffle finally came to an end when Mr. Hitt abruptly fell to the floor, cushioned end first. He made a speedy recovery and received possession of the ball.

The score was close through the whole game, but when the final buzzer sounded, the score ended 26 points for the Seniors and 24 points for the Faculty. The trophy was presented to the Seniors for the second year in a row, and they were given a big round of applause.

The Faculty men and women were disappointed in losing and said, "Just wait until next year, we'll win." The Seniors replied with, "Remember, you'll be a year older and a pound heavier."

## Operetta Next Project For Choir

The EUHS vocal department decided that after staging an eighty-five voiced torch lit medieval

There is much detail work on these tiny replicas and a lot of time and effort is spent in making them as true-to-life as possible.

We grabbed recruits and beat the bushes for kids who were willing to try anything; to work during Easter vacation, to hammer, to paint, to dance, sing, act, play, and be generally versatile.

They came in at brunch, after school, before school; spent their own time and money, half killed themselves to put on a good show.... and the student council bombs it. Somehow that hurts and really took all the glory out of it. "Those who sternly criticized the show," continued Mrs. Haydu, "are active in school affairs and believe it incumbent on them to rate all productions without any organized system of rating or voting. Because they chose not to take part in the show themselves, of course, they could not realize what a miracle - I repeat - miracle, it was on Friday afternoon."

DON SEBREN, Billy Ellis and Charlie Waldrum, three members of the Hillbilly Band, Gopher T. Slocum and the Dirt Packers, "do their thing" in the Talent Show.

one of the groups ran into. The boards are made of light balsa wood. They are held together by either glue or tiny pins, whichever the particular joining calls for.

## Bermuda Day

Bermuda day will be held following the nominations assembly for the Student Body elections. Students will be dismissed at 1:00 to start the afternoon activities.

## Lions Club Show Tonight

The time has come and once again the high school auditorium will ring with music and laughter. Tickets are available from any Lions Club member for the Exeter "Lions Frolics of 1969" to be presented tonight and tomorrow night at 8:00 p.m.

All tickets are \$1.50 and purchasers are advised that for no extra charge they must take their tickets to Mixer's Pharmacy and reserve a seat in a preferred location on a first - come, first - served basis.

This year's show, directed by Mr. Henry Simpson and musical director Mrs. Virginia Haydu, will be similar to the ones in the past, however, the action will be centered around an efficient Government Man who solves some of the major current problems facing the world at large and this community in particular.

A new feature will be the presentation of the Exeter Lions Club "Fickle Finger of Fate" award designed by Nadi Graziani, to be given each night.

The Frolics will wind up with the all-star cast presenting the familiar minstrel show, which has been one of the main attractions of the past Lions Frolic production. So be sure and attend tonight or tomorrow night's performance. This only comes along once a year.

costumed concert, that the only thing left to do would be an operetta. So it's operetta or bust. Mrs. Haydu says she's not sure but hopes to produce and direct one of the all time greats in the history of staged musical productions, "H.M.S. Pinafore" from the pens of Gilbert and Sullivan.

"H.M.S. Pinafore" was written in the late 19th century when England was the major world power. "Pinafore" satirizes the English Navy and all its pompous ceremonies and makes fun of people who are overly class conscious and tells a whopping good love story.

Leads have been cast as follows: Ralph Rackstraw, a poor but honest sailor; Greg Padgett, Captain; Doug Padgett, Admiral of the Queen's Navy; Dan Croddy, Josephine, the Captain's daughter; Jennifer Noell, Buttercup; Martha Evans, Cousin Hebe; Ethel Mays, Dead Eye Dick; David Kirkman, Bo-sun; Marvin Qualls, and the sister, brothers, cousins, and aunts will be portrayed by members of the choir. The show is scheduled for the 16th and 17th of May.

## SC Aids City

In the past few weeks the Exeter Chamber of Commerce has been attempting to establish better communications between E.U.H.S. students and the businessmen of our community. Four members of the Student Council have been representing the school at some of their meetings.

# STUDENT LIFE

## Drinking: Good or Bad?

BY STAN DILLON

In the Spring when it starts getting warm and people start to get restless from sitting in an old classroom all day, you can bet you'll hear these words, "Let's cut." And what else do people do when they cut but go out and pick up some beer from some little country store.

I'm sure most people realize by now that a great portion of the young people, male and female alike, are involved in drinking. The question I am thinking about is, is it good or bad?

From the way some people look at it, drinking brings a person nothing but trouble. I'm sure we've all heard many tragic stories of what has happened to some young people who are out drinking and not thinking, and end up paying for it the rest of their lives. But most kids have the attitude that "It will never happen to me. Those are just stories you hear in the papers."

These people are the ones who stand up for the other side of the story. They always say, "Oh, we won't get drunk, we'll just have a few beers with the gang." The next thing you know you're out tearing up somebody's property and getting in trouble with the law. Then when these people gain their senses they always ask, "Why did I do it?"

I am not trying to tell anyone what to do but

## Yearbook Now Being Printed

The final pages of the 1969 Acta have been mailed to the printer.

Mr. Simpson's journalism class has put in a lot of long hours and hard work getting this year's book ready for final publication. Now they are anxiously awaiting the arrival of the proofs.

Thanks go out to all the teachers who gave their permission to the students working on the Acta deadlines, to miss a class or two, now and then. It was greatly appreciated.

The journalism class will now spend the remainder of the year working on the Monarch publications, checking proof on the yearbook, and working out of the class textbook.

This year's Acta is due to arrive the last week in May. A few extra books have been ordered. Those students who didn't purchase student body cards at the beginning of school,

## Changes Being Made In This Year's Pep Squad Try-Outs

Cheerleader and pom-pom tryouts are going to be changed this year. Instead of having old and new student body presidents and more teachers than students doing the selecting, it will be senior pep club members, new head-yell leader, Mr. McGregor, Mrs. Hadley and Mr. Heath.

There will be a test on the rules of football, basketball and wrestling the Monday before tryouts and the girls are warned to study. This is to keep out girls who don't know why they're yelling.

The day of tryouts, all the girls out for pom-pom will have to learn 16 counts, 10 minutes before tryouts start. This is to help keep out the slow learners. Practice starts April 28 after school in the girls' gym and will be every day until tryouts. Tryouts this year will be on May 15, boys' gym, after school at 3:30. Pom-pom tryouts will be first and yell-leading second. Spectators are welcome.

## Spring Sleepers Blossom

Do you have a problem keeping your eyes open in any of your classes? Have you found you've developed the tendency to lay your head on a couple of books when a teacher lectures? Then find that suddenly your eyes begin to droop, slowly at first, and then you just can't quite keep them open....

Next thing you know you wake up for some reason and hear the laughter of your classmates around you, then look up to face a glowering teacher. The resulting punishment for your little cat-nap can range from standing up the rest of the period with a book held straight out at arm's length in front of you (and you should see just how heavy that book will eventually become!) or a notorious "gray slip."

## Disease On Campus

The Senior Class at Exeter Union High School is now under attack. One-by-one they are being struck down by that annual spring disease known by many EUHS alumni as SENIORITIS.

Some of the symptoms in their early stages may not be too detectable. The first two weeks after exposure to the disease the symptoms become obvious. Some of the most common ones are a definite lack of interest in school, falling asleep during lectures, failure to turn in the simplest homework assignments, students being able to totally ignore anything being said in a class room while looking dreamily out an open door or window. The list goes on to include such outbursts in the halls as, "let's cut today," or "get your car and let's go to the river." In more severe cases an occasional, "let's pool our money and get a case," can be heard.

Some students aren't affected so violently and just talk about what they are going to do next year when they go to college or get a job.

This disease is loathed by teachers who fortunately happen to have members of the senior class under their supervision. There is, at this time, no known cure for 'senioritis' and little hope of anyone ever finding one.

The effects of this disease can last from three to five months depending

merely trying to bring this common subject out. No matter what you think of drinking at the present, ask yourself with sincerity the next time you think about drinking, "Is it good or bad?" Think about it.

## Microfilm Viewer Comes To Library

The beginning of March started a new era in our school's library system. They purchased a microfilm machine that will view microfilms of magazines and other research materials.

The viewer will save room in the research library in back of the library. The bound volumes of magazines take up a lot of space, but the microfilm enables volumes of magazines to be stored in small areas.

They now have the microfilms of Time, Life, and US News and World Reports. They have the past five years of back issues on file and will add to it every year.

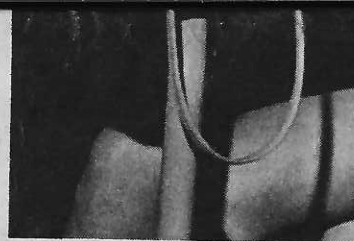

Students will be able to use the viewer shortly after it is introduced to the student librarians.

## FHA Holds Dinner

The Exeter chapter of the Future Homemakers of America held their annual dinner at Gang Sue's Tea Garden in Porterville Thursday, April 17. To raise funds for the dinner the FHA girls sold cook books. Attending the banquet were 18 members, 3 advisors and 1 guest.

or those students who have come late in the year and would like to reserve an Acta may do so now for \$6.00. See Mr. Simpson in M-2.

Know your candidates! The people you elect now to Student Body offices will run the school next year. Be sure, before you vote!

VALERIE catches 40 winks in class.

SHOWN HERE are the results of Mr. Vigil's fishing trip to Kaweah Lake. This proves without any doubt that Mr. Vigil is the best fisherman in the E.U.H.S. faculty.

Why is it that as summer approaches there seem to be more and more catnappers, dozers and just 40 wink'ers? Is it because the teachers save all their most boring 35 minute lectures for the spring weeks or is it because in summer students have a tendency to stay up a little bit later than usual? You can take your pick or develop your own theory if you like, as to why dozing in class seems to become the campus pastime at E.U.H.S. as summer approaches. Just try to keep your chin literally "up" and eyes propped open as summer draws near. Let's make these last few weeks "Be Kind to Dozers Month" and give a little help to a friend as they begin to drift, give them a shove or two as you see them beginning to slip off into the land of everlasting dreams. That is, if you yourself can stay awake long enough too!

## Lecture Given To Elementary Youth

American Field Service foreign exchange students Ken Tucker and Bernd Klemm presented an hour assembly for the seventh and eighth grade classes at Wilson School April 16.

They showed slides of Panama where Ken stayed last summer and of West Germany, Bernd's home. After that they had a 45 minute question and answer period.

on the physical fitness and mental attitude of its victim.

There are no effective preventive measures. Everyone will be hit by it sooner or later. Just take it in its stride and hold on and try to ride it out.

Teachers should remain calm at all times, for irritation can cause serious side effects. Use as much sympathy for the victim as possible and hope for a speedy recovery.

Recovery will come, by the way, during the first month after graduation.

So seniors, prepare to be attacked.

MRS. MANGINI joins in the fun at the Talent Show.

# SPORTS

## Record Year For Swim Team

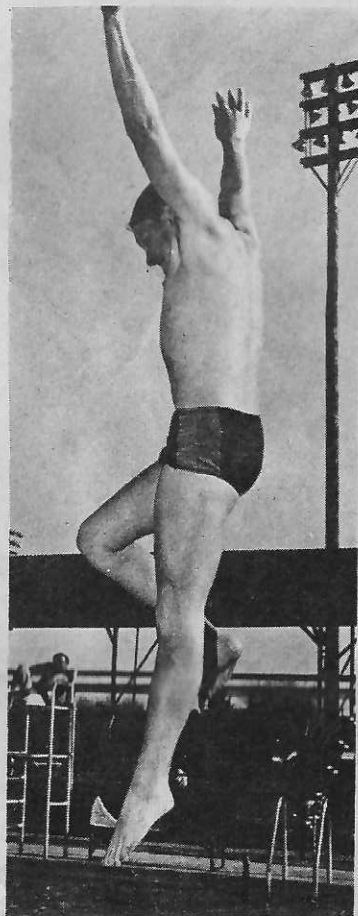

The Exeter High swim team seems to be racing through the season. The "B" boys have had no losses yet. High point winners are Russell Archer and Richard Drum. School records are being broken by Russell Archer in the 100 individual medley and the 100 free-style. Richard Drum has also broken his previous diving record. Coach McGregor anticipates a first in the league from the "B's."

This year the team has only three "A" boys, who have done a great job considering their number. Dwight Miller has shown great promise as an outstanding league swimmer.

The girls' team came close to capturing the championship this year. Coach McGregor has high hopes for his girls next year with the incoming freshmen and those remaining. High point winners are Judy Sweet and Sue Anderson. Janet Mangini has broken the record she established last year in diving. The girls have shown great potential and expect to finish the season with high league standings.

In the league meet against Dinuba the "B" boys and girls were victorious with scores of 58-33 and 44-42. The team is now preparing for their final divisional meet on May 3.

High school is almost out. For some there is a

## Varsity In Title Race

The Varsity baseball team, under Coach Kouklis, is having a head to head battle with Dinuba for the West Sequoia League Championship.

The Monarchs broke up a log-jam on April 11, with a victory over co-leader Kingsburg to stay tied with Dinuba who beat Coalinga.

The win over Kingsburg was a great spectators' game with the winning run coming across with two outs in the bottom of the seventh for a 4 to 3 victory.

The team participated in the sixteen team Selma Tournament over Easter Vacation. The first game with Riverdale was won by the Monarchs 8 to 5. Then in the second game, Exeter was defeated by a strong Sanger team 5 to 1, which put the Monarchs out of the tournament.

On April 15, Exeter beat Coalinga 2 to 1 in another thriller that saw the deciding run coming across in the bottom of the seventh.

The team is playing above .500 ball with a record of 8 wins and 7 losses on the season. In West Sequoia League action the Monarchs have 4 wins and 1 loss to share the lead.

Is school spirit dead? Don't let spring sports mark the end of your sup-

## Track Season Picks Up

Our varsity track team started out slowly this year, in meets against larger schools like Mt. Whitney, Tulare Union and Redwood. In competition with schools our own size we are doing much better with a league record of two wins and no losses. So far, the team has an overall record, including larger schools, of four wins, three losses. At the Invitational track meet on Saturday the B class did very well against Lemoore at Corcoran; our team ended with a second, competing with twenty four other schools.

One of the outstanding members of the team is Eric Rawls, who has run the quarter mile in 50.3 and is number five in the valley. Another asset to the team is Don Lane, a sophomore who gains points in the 180 low hurdles and 120 high hurdles. Don is the best in the valley in the B class 70 yard high hurdles, with a time of 9.1. Jack Scott holds the school record of 41'11" in the triple jump, and senior Chris Stone is one of the best in the central section in pole vault, doing 12'. Our mile relay team consists of Charlie Stearn, Randy Bethel, Eric Rawls and Justo Gonzales, and they hold the school record of 3:29.3.

## Golfers Defeat Tranquility

Exeter's 1969 West Sequoia League debut wasn't a very impressive one, but fortunately it was good enough to win. The Monarchs opened up its league match play with arch rival Kingsburg at the Kings River Country Club. In this very important match the Monarchs defeated Kingsburg by a default decision. This happened when a Viking player failed to finish a hole and picked up his ball. So naturally, in a total stroke situation Kingsburg was forced to default. If it had not been for the default it would more than likely have been defeat for the Monarchs as the scores went sky high.

Scores on the cold and windy back nine at Kings River were: Chuck Pruner 43, Dick Kirkpatrick 46, Steve Maaske 50, Mike Journey 51, Mark Brandt 56, and Vince Holmes 61.

The Linksmen traveled to Tranquility for their second league contest. Cold and windy weather con-

## Improvement Seen In Tennis Teams

The Exeter High tennis teams travel to Coalinga for the West Sequoia League tournament the

three month vacation and then right back to high school, for others there is the college route, for those who want to improve their mind, and still yet, there are the ones who want to play the marriage game. What will you do?

**THE DIVING TEAM** is shaping up well this year. Here Richard Drum goes through his paces at a weekday practice.

## Staley Pitches No-Hitter

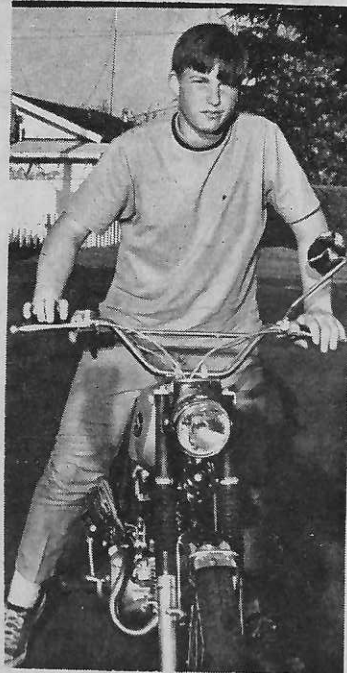

Stan Staley tossed a no-hitter in defeating Fowler 5-0, on Fowler's diamond, Friday, April 18. Staley struck out eight and walked only two in his hitless performance. Exeter ripped eleven hits in dominating Fowler.

Our strong hitting Frosh-Soph squad is leading the league with a fine record of six wins and no losses. We have an overall record of nine wins and four losses, but the non-league encounters don't count in the final standings.

Stan Staley shows a fine record of 3-0 in league play, while Dennis Mairrel boasts a 2-0, and Jim Armstrong has a 1-0 record.

Hitting has been one of the strong points of the club all season. Stan Staley and Jim Freeburn both have the outstanding batting average of .692. Other top hitters on the club are Brad Wirht .500, Dennis Mairrel .455, Terry Dillon .357, Robert Campbell .333, and Jim Armstrong .333.

port. Many of our teams have a chance to be league champs.

**WHAT A SPORT** - Vince Holmes proudly displays his new Honda "90"

and of May.

The varsity team has a record of 4 wins and 7 losses. On the boys' singles division is Mark Hickey, outstanding tennis player. He is undefeated in the league as first boys' singles and is predicted as Valley champ.

Jennifer Crosson, second year tennis player, plays in the girls' singles division. Girls' doubles are Vicki Nusse and Lorraine Cannon. Boys' doubles are Gus Savage and Jim Pitkin. The players for mixed doubles are Mike Kreutzer and Stella Prudhomme.

The Junior Varsity has a record of 2 wins and 2 losses.

Mr. Lurz has high hopes of next year's team with the returning members. He thinks they may have a chance for a second or third in the league next year also. Although the record of wins and losses isn't very good this year, Mr. Lurz believes that the team has improved greatly since the beginning of the season.

## Officers Elected

Future Farmers of America held their monthly meeting on April 16. At this meeting elections for next year's officers were held. The results of the elections are as follows: President, Randy Barnett; Vice President, Randy Newsome; Secretary, Cheryl England; Treasurer, John Crow; Sentinel, Nick Clark; Reporter, Mike Martin; Assistant Reporter, Bob VanGroningen; Chaplain, Ed Parraz.

tinued but scores improved as the Monarchs picked up their second league victory.

Chuck Pruner led the Monarchs' win with a very fine 40 over the cold and windy course. Other scores included: Dick Kirkpatrick 42, Mike Journey 43, Vince Holmes 44, Mark Brandt 47, and Steve Maaske 49.

In pre-league matches the Monarch golf team compiled a very impressive record of 8 wins and 3 losses. Some very fine rounds of golf have been turned in as a result of this successful pre-league record. Seniors Chuck Pruner and Mike Journey have turned in rounds of 37 and 35 respectively on their par 36 home course. These two golfers will more than likely be among the top golfers in their league.

With this impressive pre-league record under their belts the Linksman are off to a good start in league play, already defeating Kingsburg and Tranquility. Lindsay will be the team to beat if the Monarchs expect to win their league. But, if Lindsay expects to win their league they must beat Exeter.

This week the campus of E.U.H.S. was turned into a pet shop by the distribution of Pacific treefrogs from the Science rooms. Many of these tiny creatures, who are less than an inch long were given away by Mr. Lurz to any student or teacher who wanted one.

**AFTER GETTING OFF TO A GOOD START** in league play by defeating Kingsburg and Tranquility, the Monarch golf team takes the practice tee to prepare for their next league match with Dinuba.

## FFA Sweetheart To Be Announced At Banquet

It's that time of year again! Each class has nominated their candidate for FFA Sweetheart and the race is on! The freshman candidate is Lori Smith. Lori's competition from the sophomore class is Jodelle White. The juniors nominated Beverly Dunn, and Kathy Hattic represents the seniors.

Each girl's picture is on a box at the Ag farm, and money is dropped through a slot--each penny representing one vote. Just before the FFA banquet the votes will be tallied and the girl who wins will be crowned that night by Melissa Clevenger, Exeter's current FFA Sweetheart.

On May 6th the annual F.F.A. awards banquet will be held, and in addition on that night the F.F.A. Sweetheart for 1970 will be crowned by the current sweetheart, Melissa Clevenger. The banquet is held each year to present awards to the boys who have done outstanding work in many fields.

Some of the awards offered are: De Kalb Award, Bank of America Award, Kiwanis Award, Honorary Chapter Farmers Award, and the Foundation Award, which actually is 15 separate awards for different fields related to agriculture, such as agriculture business, Crop Farming, Farm Safety, Ornamental Horticulture, Soil & Water and many more.

This year a new attraction has been added. Tick-

## Selected Boys Serve As Aids

This year a class was offered to a special group of selected boys. The class is called P.E. Aid Boy. A requirement for this course is that you must be recommended by the P.E. instructors before qualifying for the class.

The jobs of the P.E. Aid Boy vary greatly. Some of the jobs include maintaining a clean office for the P.E. instructors. To do this the Aid Boy must know where a great variety of materials and equipment belongs. Another of the many jobs the Aid Boy must do is make sure all towels and trash are picked up in the locker room area. Many times the Aid Boy is required to sweep the gym or to put up volley ball or badminton nets. He must be acquainted with the rules of a great variety of sports so that he may officiate when needed. Most important of all the Aid Boys' duties is that he is in charge of the gym whenever the classes are at their activities. The respon-

## PE Becomes Co-Educational

Togetherness - that's the word for PE this last quarter. Boys' and girls' physical education classes are combined to have co-ed golf, tennis, badminton, softball and swimming.

This program was designed by the PE department to encourage co-ed participation in sports. It allows the students to participate in an informal situation together.

The first 4-week session started April 7 and will end May 12. The only change in the second session is swimming will be added to the agenda.

Co-ed PE has brought some mixed feelings on campus. Here are a few opinions of classmates:

Suzi Howell: A little dangerous

Carla Green: Not so good, I have a rip in my shorts.

Betty Williams: It's alright because we have "ok" boys.

Linda Everett: Oh, it's ok, it doesn't make any difference.

Tommy Slover: Yeck!

Glenna Jones: I don't like it.

Marvin Qualls: It's better than the boys being by themselves.

Larry Pitkin: I like it, "Yea"

Golf is taught by Mr. Larry Allred. The students are taught the basics of the game and then practice what they learn on the baseball field. Mrs. Marion Morris is in charge of the softball teams. They have mixed teams and play against different teams each day.

Mrs. Mangini coaches the badminton teams and tells them how to score and better their games. Tennis is coached by Mr. Beach, who is now helping the students improve their tennis techniques.

## Kreutzer-Graziani County Finalists

On March 11, 60 students from E.U.H.S. gathered in the cafeteria for the 20th National Math Test.

From this test Mrs. Veitch sent in the names and scores of the top three contestants from Exeter. All the cities in Tulare County sent in their top three contestants, and the top five out of the county were chosen. The top three from Exeter were Mike Kreutzer, first; Al Graziani, second; and Dave Bryan, third. Out of these three Mike Kreut-

## Drug Assembly Presented To Youth, Adults

Youth from Fresno schools spoke to the students of Exeter High, Wednesday, April 23. Their topic was dealing with involvement of drugs and narcotics. These students were once users and shared with us their experiences that these harmful drugs have on life and how they have "Kicked the habit."

The threat that drugs have on youth is a main concern to them and also a vital question with society.

That night at 7:30, the Patrons Club also sponsored a program on drugs and narcotics for the public. The program aimed at answering two basic questions: 1. Is my son/daughter involved with drugs or narcotics? 2. What can I do - where do I turn for assistance in dealing with this menace?

After the presentation the youth were set up in booths and if there were any further questions, students or adults could come and ask them privately.

ets are being sold by F.F.A. members for a door prize, either before the banquet or at the door. The price of the tickets is fifty cents each, and you have two chances to win. There will be two drawings, and the prize each time will be one half of a hog.

sibility of making sure the gym is secure and safe is his.

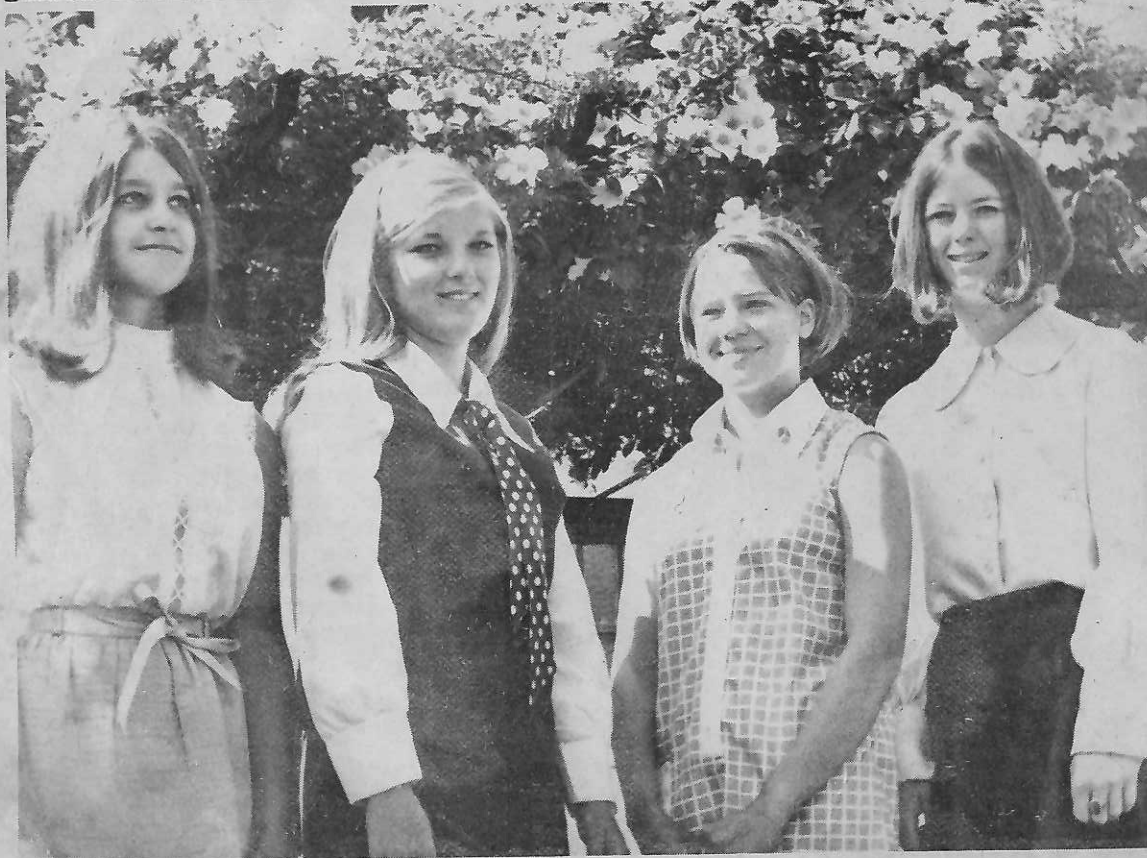

Students who are now considering being P.E. Aid Boys must first examine themselves and be willing to accept great responsibilities with adult and mature attitudes.

zer and Al Grazianni made it to the top five.

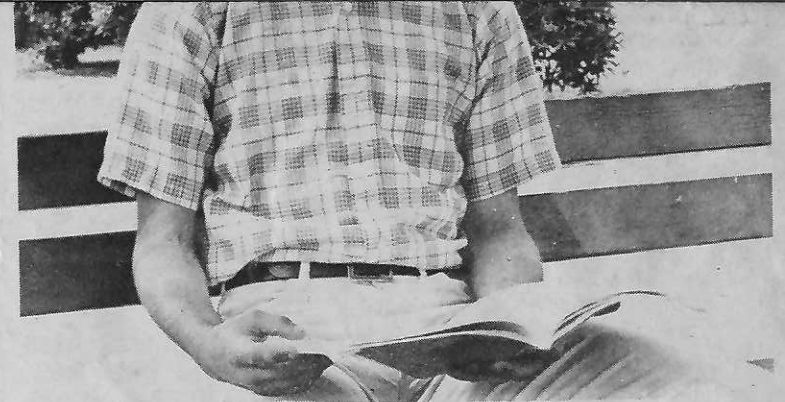

On April 19, the top five out of each county competed in Fresno in the Central Valley Math Contest. First prize was \$1000.00 and second prize was \$500.00.

In the past eleven years in which Exeter has competed, we have had 20 students finish in the top five, this is out of a total of 55 contestants.

## Be Sure To Support Our Baseball, Swimming And Tennis Teams Today

EACH YEAR four candidates are picked to run for FFA sweetheart. This year's candidates, representing their respective classes are (left to right): Juniors, Beverly Dunn; Sophomores, Joelle White; Freshmen, Lori Smith; and Kathy Hattic representing the Senior class.

AL GRAZIANI (pictured here) and Mike Kreutzer were among the top five county finalists in the national math contest.

## Helpful Reminder To Bookworms

Just a reminder to all EUHS Bookworms.

From now on all students who have overdue library books or unpaid fines of a month's duration will not receive any more blue library overdue notices. Instead, you will be invited to the office of Mrs. Hadley or Mr. Hitt to talk the matter over. In the future, students will be notified two times for each new overdue. After you are notified the second time, it won't be long until you receive your invitation to see those lovely people in our friendly office.

## Student Body Election Calendar

- Friday, April 25 - Candidates and Campaign Managers Meeting Period D, Cafeteria (Return petitions and candidate summary sheets)
- Monday, April 28 - Campaign Begins (no sign above the height of roof-line)
- Wednesday, April 30 - Nominations Assembly and Bermuda Day
- Friday, May 2 - Student Body Election
- Monday, May 5 - Announce the Election results
- Monday, May 26 - Installation of Student Body Officers
